

PROJECT FINANCING ALTERNATIVES

Make your energy efficient vision a reality with our ROI financial options.

Sometimes, the initial outlay can be the greatest obstacle to energy efficiency upgrades. Don't let financing be an obstacle to your return on investment goals.

Payment Advantage for Building Equipment

Not every organization has the same access to capital, and Horizon Solutions can provide options to our customers. We understand that upgrading building equipment is challenging when there is no budget. Horizon Solutions helps our customers find monthly payment plans to help make their necessary equipment investments a reality.

Payment Plans to Fit Your Needs

Customers can choose from a variety of options to select the monthly payment plan that best supports your overall financial goals.

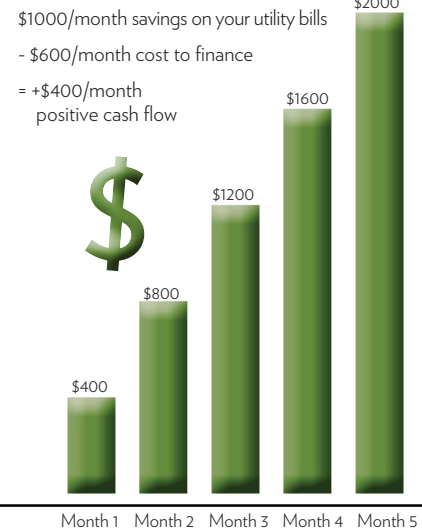

- 36 Month Term**
Standard capital lease with fixed monthly payments and a \$1 buyout at the end of the term.
- 60 Month Term**
Conserve capital to operate your business with a low monthly payment.
- No Payments for 6 months with a \$1 buyout at the end of the term**
Save cash before making your first payment in month 7 on a 60 month lease.
- Finance on your Utility Bill with a \$1 buyout at the end of the term**
Our unique solutions will provide an opportunity to pay for your conservation measures with no upfront capital through monthly charges that appear on your electrical or natural gas utility bills.

Utility Incentives

- ✓ Customers can apply their incentive towards their monthly lease payment
- ✓ Customers can use their incentive to reduce their total initial lease amount
- ✓ Customers can receive their incentive as cash to utilize as needed

Please note that eligibility for payment plans is determined by project and by the borrower's credit. Incentives and rebates are subject to the local energy service provider.

Savings Example:

What does this positive cash flow mean for your business over time?

- ✓ Additional employees
 - ✓ Equipment investments
 - ✓ Equipment upgrades
