

MAXIMIZE PRODUCTIVITY – MINIMIZE RISK

Advance your process control using modern distributed control technology.

Integrated Scalable

Automating your processes does not have to be a one-size-fits-all solution to maintain essential operations. What does your process control solution require?

We offer a wide range of process solutions that apply methods and technology to safeguard your operations, and match your business and performance requirements. These process control solutions are scalable, flexible, and easy to integrate. This helps your organization increase productivity, lower costs, reduce energy consumption, and improve safety.

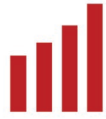

Our Process Solutions team can help you improve operational effectiveness, maximize productivity, and minimize risk.

PROCESS CONTROL SOLUTIONS

Batch, process optimization, and services

Batch

Optimization

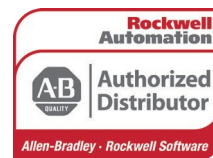

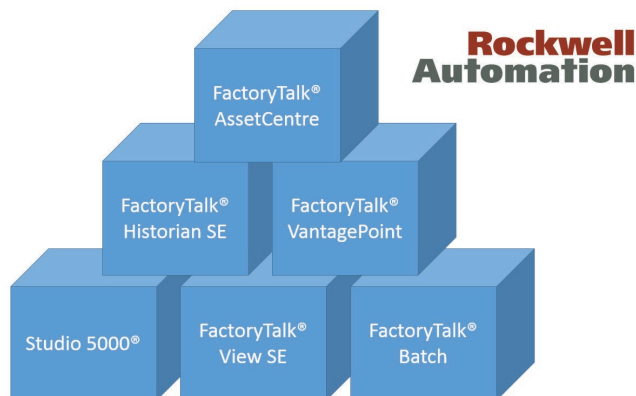

Services

We help you:

- ▶ Identify process issues
- ▶ Analyze information
- ▶ Select and implement the optimal solution
- ▶ Verify results

We are domain experts on Rockwell Automation® solutions including:

- **Studio 5000®** – Modular control to help maximize performance, save project development time, and improve productivity.
- **FactoryTalk® View SE** – A supervisory-level HMI software for monitoring and controlling distributed-server/multi user applications.
- **FactoryTalk® Batch** – Efficient, consistent predictable batch processing that combines the ISA S88 standard with proven technology.
- **FactoryTalk® Historian SE** – Provides data capture, management, and analytical capabilities to help generate improved decision making.
- **FactoryTalk® VantagePoint** – Powerful web-based solution that integrates all data into a single information management and decision support system.
- **FactoryTalk® AssetCentre** – A centralized tool for securing, managing, versioning, tracking and reporting asset information across your facility.

Horizon Solutions helps improve our customers efficiency, productivity and safety through expertise in Electrical, Automation, Industrial, Energy, and Safety products and services. We seek to understand your needs and apply solutions that solve your most demanding challenges.
